Date & Time: 28th of May at 11:00-12:30 GMT

Format: Online Talk

Description: The UNESCO Chair of Cultural Heritage Management and Sustainability was established in 2011 at the Institute of Advanced Studies in Kőszeg (iASK) and integrated into iASK in 2017. The Chair serves as a regional center for promoting cultural heritage preservation practices and developing innovative research and study programs. Led by Professor Ferenc Mislivetz, the Chair of Cultural Heritage Management and Sustainability in Kőszeg promotes the values of UNESCO. The aim of the UNESCO Chair is to promote cultural heritage management practices, ensuring the reconstruction, protection, and utilization of cultural heritage sites, while promoting their socio-economic benefits and community involvement. We would like to present the results of our current research and the activities of the Chair at the next Resilience Catalysts Talk event in a series of professional lectures.

UNESCO Chair in Cultural Heritage Management and Sustainability

Fostering Innovation and Sustainable Preservation Practices

This Talk is part of the Resilience Catalysts Cycle of Talks bringing together UNESCO Chairs working on DRR and resilience to share knowledge and expertise. Information concerning this Cycle of Talks can be found here: <https://resilience.uniud.it/resilience-catalysts>
